Home Office solutions are Picture Hanging Systems that are optimized for home or office usage. In order to put your system together you will need to choose your rail options, then your hanging options and finally your hook options. Once you have the core of your system selected, you can pick accessories or installation hardware from our offer.

1  Select your Rail Option

Wall Mounted - Gallery Rail
Select your rail color and install using anchors and screws

Wall Mounted - Moderna Rail
Select your rail color and install using anchors and screws.

Ceiling Mounted - Sky Rail
Select your rail color and install using anchors and screws

2  Select your Hanging Option

J-Hook Cables
U-End Cables
Cable Rods

Hanging Rods

3  Select your Hook Option

Cable Hooks
Available in Side Screw and Self-Gripping

Rod Hooks
Various Options available
Gallery - Rail
Wall-Mounted

For use with:
Gallery Rail Cable Rods / Gallery Rail Hanging Cables / Gallery Rail Hanging Rods

Examples:

Product Information

The Gallery series Art and Picture hanging rail is simple and inconspicuous in its design and is rated to withstand weights of up to 175 lbs / 79 kg.

Once installed, you can easily hang paintings by just placing the Picture Hanging Rod, J-Cable hanging Rod or J-Hook picture hanging Cable on the rail's ledge.

The Gallery picture hanging rail offers additional flexibility by allowing you to change the rail's orientation to create a top-to-bottom tension installation.

A good example of this would be to mount an upper and then a lower rail, but the lower would be turned upside down, giving you the ability to create a tension hanging system. The cable would be secured to the lower rail using the Tension Spring as you can see from the images below.

The Gallery Picture Hanging Rail, favored by many galleries and museums, is one of our best-selling items.

Application: Wall-Mounted
Material: Aluminum
Available Length: (72") - (182.88cm)
Rail Height: 23.6mm - (7/8")
Available Colors: Multiple
Rated Rail Weight: 175 lbs / 79 kg (When Properly Installed)

Installation

Step 1.
To hang items using this Rail, you must first select your hanger preference:
1. Hanging Cable
2. Cable Rod
3. Hanging Rod

Step 2.
After you have selected your hanging option, you must then select the right Hook.
(Rod Hooks) for Picture Hanging Rods and (Cable Hooks) for Picture Hanging Cables.

Note: Hanging Rods - Hanging Cables - Picture Hooks and Accessories Sold Separately!
Gallery, Museum, Commercial Solutions - Picture Rails

Gallery - Rail
Wall-Mounted

For use with:

**Product Information**

The Moderna Picture Hanging Rail slightly more detailed and decorative than the Gallery Hanging track is light in weight with the ability to withstand up to 250 lb / 114 kg of weight.

The highly durable and elegant Moderna Picture Hanging Track, with its professional look, is the perfect rail for new construction that includes, but not limited to flush-mounted wall applications.

The Moderna Picture Hanging Track also provides additional flexibility by allowing you to change the rail's orientation to create a top-to-bottom tension installation.

A good example of this would be to mount an upper and then a lower rail, but the lower would be turned upside down, giving you the ability to create a tension hanging system. The cable would be secured to the lower rail using the Tension Spring as you can see from the images below.

**Application**: Wall-Mounted

**Material**: Aluminum

**Available Length**: (72") - (182.88cm)

**Rail Height**: 28mm - (1-1/8”)

**Product Information**

The U-End picture hanging cable allows for hanging objects using both wall and ceiling-mounted picture rail systems.

The Stainless Steel U-End works particularly well when rails are flush mounted to the wall. Additionally, the U-End cable works perfectly when used in either a two rail tension application or with our lower tension gliders available in self-gripping or Ball-End.

The U-End picture hanging cable works with the following rails:
- **Sky - Ceiling Mounted**
- **Moderna - Wall Mounted**
- **Gallery - Wall Mounted**

**Material:** Stainless Steel  
**Cable Thickness:** 1.8mm / 7 x 7  
**Cable End:** Fused  
**Available Lengths:** Multiple  
**Rated Weight:** 34 lbs / 15 kg

### Installation Instructions:

1. To hang items using this hanging cable, first select your rail preference: **Sky Rail** - **Moderna Rail** - **Gallery** picture rail systems.
2. After you have selected your rail you must then select your **Cable Hook**.

## J - (Cable Rod) - Steel

**For use with:**
- Cable Hooks
- Gallery Wall Mounted
- Moderna Wall Mounted
- Sky Ceiling Mounted

**Price** | **$7.95**
--- | ---
$7.95 | Silver
$7.95 | Black
$7.95 | White

**Product Information**

The J-Cable Rod, a hybrid of both the hanging cable and square profile rod, gives users a viable hanging solution suitable for art, pictures, posters, and signs.

The Cable-Rod was developed for residential and office type settings and for users who don't require the strength and boldness of the commercial grade hanging rod and alternative to hanging cables.

The extremely thin and robust J-Cable-Rod maintains a diameter of 1/16" making it compatible with our entire line of self-gripping hooks, side screw hooks, side clamps, and picture stabilizers.

**Note:** The J-Cable Rod should not be confused with the heavy-duty square profile Hanging-Rod. For objects that exceed this item's rated weight, it is suggested to select other rods available on the site.

**Material:** Steel

**Rod Profile:** Round - 1/16"  
**Available Colors:** Silver • White • Black  
**Available Lengths:** Multiple  
**Rated Weight:** 30lb / 13Kg

### S - Hook

For use with: Loop End Cable

| Price  | $1.95 |

The S-Hook is used in conjunction with the loop end cable providing excellent carrying weight for hanging objects.

The S-Hook is placed on the rails ledge and the Loop-End cable is placed on the hook.

### Picture Stabilizer - (For Cable System) - Small Size

For use with: Cable Systems

| Price  | $6.95 |

The picture stabilizer is very useful and adds increased stability when hanging more than one object on a single cable.

The stabilizer slides onto the cable through its center bracket and is hand tightened once you have selected your desired location.

Although not a mandatory accessory, it is suggested to use the stabilizer when hanging multiple smaller works of art on a single cable in order to keep the article perfectly straight and balanced.

### Picture Stabilizer - (For Cable System) - Large Size

For use with: Cable Systems

| Price  | $8.95 |

The picture stabilizer is very useful and adds increased stability when hanging more than one object on a single cable.

The stabilizer slides onto the cable through its center bracket and is hand tightened once you have selected your desired location.

Although not a mandatory accessory, it is suggested to use the stabilizer when hanging multiple smaller works of art on a single cable in order to keep the article perfectly straight and balanced.

### Anti-Theft / Rod Security Bracket

For use with: Gallery Wall Mounted / Modena Wall Mounted / Sky Ceiling Mounted / Classic Hanging Rod - Aluminum / "J" Hanging Rod - Aluminum / "J" hanging Rod - Stainless Steel

| Price  | $8.95 |

The Rod Security Bracket provides an extra line of defense against the possibility of theft when paintings are displayed in public areas such as offices, retail stores, restaurants, lobbies and locations where potential theft can occur.

The Rod Security Bracket does not provide any guarantee against theft. However, it will make removal of the hanging rod a time consuming challenge that will require the use of tools to remove.

**Material:** Steel  
**Available Colors:** White Powder Coated, Black Powder Coated, Silver Powder Coated

### Picture Stabilizer - (For Hanging Rod)
