**Product Information**

The (Fixed) **Point-To-Point** tension cable set with its upper cable Coupler and lower Tensioner gives users the ability to suspend objects from Ceiling to Floor.

The Ceiling to Floor tension cable set is perfect for picture hanging, window displays, offices, display cases, showrooms, menu boards, signage, point of purchase, conference rooms, and locations where items are frequently changed or for areas that need an extra level of stability.

After both the upper and lower supports have been installed, the cable is threaded through the upper support to the lower tensioner and then secured to the provided **Ball-Anchor**.

After the cable has been threaded through the lower support and secured to the Ball-Anchor, the excess cable is cut and the lower Tensioner is then turned clock-wise to create the desired tension.

**Application:** Ceiling to Floor

**Material:** Aluminum

**Available Finishes:** Matte Silver / Anodized Black - Semi Gloss / White Powder Coated - Semi Gloss

**Available Cable Lengths:** 10' / 304.8cm or 20' / 609.6cm

**Rated Weight:**
- 22 lbs / 9.9kg (Solid Structure) - 7 lbs / 3.1kg (Drywall-Ceiling)

The following items are included with (Fixed) Ceiling to Floor Tension Cable Set:

- (1) Upper Cable Coupler - (Top support)
- (1) Lower Tensioner - (Lower Support)
- (1) Cable
- (1) Ball-Anchor
- (1) Spring
- (1) Hex Wrench
- (2) Upper and Lower Base mounting screws
- (2) Anchors and (2) screws for basic (light weight drywall Installation)

The products rated weight pertains to the hardware only.

Actual carrying weight may vary based on both installation and variable conditions of the structure.

**Installation**

**Note:** Toggle Bolt Anchors are required in order to achieve max weight load when installed to drywall ceiling.

**IMPORTANT:** As conditions are different from location to location it is mandatory to check that the top ceiling fixings are strong enough to take the weight of the objects being hung.

The variable conditions of both the ceiling and floors may change the products allotted weight and sound judgment must always be used by the customer. It is also important never hang items in locations that could potentially cause damage or harm to items of value, humans, pets, or anything living for that matter.

The Wall-to-Wall tension set gives users the ability to securely suspend objects from wall to wall and is ideal for high traffic areas.

The Wall-to-Wall system is perfect for picture hanging, window displays, offices, showrooms, menu boards, signage, point of purchase, conference rooms, and locations where items are frequently changed.

Once the upper and lower tensioners have been installed, the cable is then threaded through lower tensioner and the Ball-Anchor is secured to the cable.

After the ball-anchor has been secured, the excess cable is cut and the Tensioner is secured to the lower base and turned clock-wise to create the desired tension.

**Product Information**

**Application:** Wall-to-Wall  
**Material:** Aluminum  
**Finish:** Satin Silver  
**Available Cable Lengths:** 10' / 304.8cm or 20' / 609.6cm  
**Rated Weight:** 26 lbs / 11.8kg (Solid Structure) - 12 lbs / 3.6KG (Drywall)

The following items are included with Tension Cable Set:  
(1) Upper Cable Coupler  
(1) Lower Cable Coupler / Tensioner  
(1) Stainless Steel Cable 10' / 304cm or 20' / 609cm  
(2) Coupler mounting rings for upper and lower supports  
(1) Anchor Ball - To secure cable to lower coupler  
(1) Tension Spring  
(2) Anchors and (2) screws for basic (light weight) drywall installation

The products rated weight pertains to the hardware only.

**Actual carrying weight may vary based on both installation and variable conditions of the structure.**

**Note:** Toggle Bolt Anchors are required in order to achieve max weight load when installed to drywall ceiling.

**Installation Instructions:**

**Installation Tension Set - Fixed Anchor Plates**

Once the upper and lower hardware have been installed, the cable is threaded through lower tensioner and then secured to the provided Ball-Anchor.

After the Ball-Anchor has been secured, the lower Tensioner is turned clock-wise to create the desired tension.

Last, excess cable is threaded through lower couplers side exit and then cut if desired.

### Lower Profile - (Self-Gripping) - Cable Tensioner

**For use with:**
- All Rails, Cables and Cable Rods

**Price** | **$9.95**
---|---

The multifunctional Self-Gripping glider is perfect for either suspending objects that need to be hung from atop or used as a lower profile floor tensioner for lightweight displays.

When used as a tensioner, this item will stabilize the cable while minimizing the movement of your display.

The Self-gripping glider can be configured to work with all rails, cables and cable rods.

This item is particularly good for retail and commercial spaces that require an indiscreet means of hanging signs, banners and point of purchase material.

### Lower Profile - Tensioner

**Price** | **$7.95**
---|---

The Lower profile tensioner is used to create tension between a suspended cable and either the floor or display unit.

This item will stabilize the cable while minimizing the movement of your display.

This item is particularly good for retail and commercial spaces that require an indiscreet means of hanging signs, banners and point of purchase materials.

### Anchor and Screw Set - Standard

**For use with:**
- Click Track Classic / Click Track Deco

**Price** | **$12.95**
---|---

The Ball-End Tensioner is used to create tension between two rails when using either the click track classic or click track Deco.

### Tension Spring

**Price** | **$4.95**
---|---

The tension spring is used to create tension between upper and lower rails.

The spring is simply secured to the cable and then pulled over the ledge of the lower reversed rail.

**Product Information**

The Vertical single sided round profile side clamp is ideal for hanging posters, signs, banners, foam-board, Plexiglass and for use with Acrylic pocket displays available through Systematic Art.

The side clamp is great for window displays, menu boards, offices, conference rooms and in areas where items and objects are frequently changed.

**Single Sided Vertical Clamp / Opening 5/16”**

- **Material:** Aluminum
- **Profile:** Round
- **Available Colors:** Silver • White • Black
- **Opening:** 5/16”
- **Opening Depth:** 7/16”
- **Clamp Profile:** Length: 1-1/16” • Diameter: 1/8”
- **Weight Support:** 4 lbs / 1.8 kg

Side Clamp includes the following items:
1. Clamp
2. Set Screw
3. Hex Wrench

---

**Product Information**

The Vertical double-sided round profile cable clamp is perfect for posters, signs, banners foam-board, plexiglass and acrylic pocket displays available through Systematic Art.

The double-sided cable clamp is used to create a continuous connection between objects and images.

The side clamp is ideal for window displays, menu boards, offices, conference rooms and in areas where items are frequently changed.

**Double Sided Vertical Clamp - Opening 5/16”**

- **Material:** Aluminum
- **Profile:** Round
- **Available Colors:** Silver • White • Black
- **Opening:** 5/16”
- **Opening Depth:** 7/16”
- **Clamp Profile:** Length: 1-1/2” • Diameter: 1/8”
- **Weight Support:** 4 lbs / 1.8 kg

The Double Side Clamp includes the following items:
1. Clamp
2. Set Screw
3. Hex Wrench
Side Clamp - Single Sided - (Round) - 7/16"
For use with: Cable Hooks / Side Clamps

Price $5.95
The Vertical round profile side clamp is perfect for hanging banners, signs, banners and foam-board.

The side clamp is ideal for window displays, menu boards, offices, conference rooms and in areas where items are frequently changed.

Side Clamp - (Rotating) - Double Sided 3/8"
For use with: Ceiling Couplers / Hanging Cables / Tension Systems

Price $12.95
The Swiveling (Self-Gripping) double sided clamp is perfect for panels, signs, banners, foam-board plexiglass, and shelving. The clamp is able to rotate 360 degrees giving users maximum flexibility.

The side swivel clamp is perfect for window displays, menu boards, offices, conference rooms and in areas where items are frequently changed.

The Self-Gripping Swivel clamp uses 3 ball bearings inside an inner cylinder. Once the cable is inserted to the cylinder, the ball bearings move and grip against the cable causing them to lock. To release simply depress the cylinder with your finger. With cylinder depressed the clamp is then able to freely slide up and down the cable. Once the pusher is released the clamp then locks into position.

Rotating / Side clamp Single Sided - Opening 3/8"
Material: Brass
Function: Self-Gripping / Rotating
Profile: Round / Singe Sided
Available Colors: Satin Silver
Opening: 3/8"
Opening Depth: 7/16"
Clamp Profile: Length: 1-1/2" - Diameter: 5/8"
Weight Support: 4 lbs / 1.8 kg

Side Clamp set includes the following items:
1. Clamp
2. Set Screw
3. Hex Wrench

Side Clamp - (Rotating) - Single Sided 3/8"
For use with: Ceiling Couplers / Hanging Cables / Tension Systems

Price $10.95
The Swiveling (Self-Gripping) single sided clamp is perfect for hanging art, signs, banners, foam-board plexiglass, and shelving. The clamp is able to rotate 360 degrees giving users maximum flexibility.

The side clamp is perfect for window displays, menu boards, offices, conference rooms and in areas where items are frequently changed.
